

GENUS MC8™

A Soil Amending Microbial Complex

Regenerate Soil and Plant Life with High Performance Probiotics

GENUS MC8 is a water soluble bio-fertilizer powder containing a unique mixture of five different plant growth promoting rhizo-bacteria (PGPR) and three different plant growth promoting rhizo-fungi (PGPF) and a blend of biostimulants and chelated micronutrient formulated for use as a soil drench, transplant treatment, in-furrow spray, bare root treatment and foliar application.

NUVIA
TECHNOLOGIES INC.

Inspired by Nature, Driven by Results

Beneficial Microbial and Biostimulant Complex for Soil and Crop improvement

PURPOSE

Genus MC8 is a water soluble bio-fertilizer powder containing a unique mixture of five different plant growth promoting rhizo-bacteria (PGPR) and three different plant growth promoting rhizo-fungi (PGPF) and a blend of biostimulants and chelated micronutrient formulated for use as a soil drench, transplant treatment, in-furrow spray, bare root treatment and foliar application.

CONTAINS NON-PLANT FOOD INGREDIENTS AND NOT A FERTILIZER SUPPLEMENT

Total microbials	5%
Total biostimulants.....	72%
Total inert ingredients.....	23%

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapffco.orf/metals.htm>

GUARANTEED MINIMUM ANALYSIS:

Bacillus subtilis	5 x 10 ⁸ CFU
Bacillus licheniformis	5 x 10 ⁸ CFU
Bacillus amyloliquefaciens	5 x 10 ⁸ CFU
Brevibacillus laterosporus	5 x 10 ⁸ CFU
Bacillus pumilus	5 x 10 ⁸ CFU
Trichoderma viride	5 x 10 ⁶ CFU
Trichoderma harzianum	5 x 10 ⁶ CFU
Glomus interaradices	150 Viable Propagules/g
Iron (Fe)	0.05%
Manganese (Mn)	0.05%
Zinc (Zn)	0.05%
Humic Acid	20%
Fulvic Acid	20%
Amino Acids	20%
Ethylenediaminetetraacetic acid (EDTA)	23%

Can be used with compatible powder or liquid nutrients.

APPLICATION:

Apply to soil, existing plants, seed beds or roots at transplant time for any plants. Make physical contact between the product and the plant root/seeds. Mix Genus MC8 with required amount of water and apply. Follow the direction to use as shown below.

Dosage Recommendation and direction of use:

Crops	Application (g/ha) (oz./ha)	Direction of Use
Open Field: Cereals, Pulses, Oil Crop, Root Crop, Fruits and Vegetables	207 to 260 g/ha 7 to 9 oz/ac	In-furrow: Used in 26 gal. of water. Irrigation: apply after transplanting
Transplanted Crops: Berries, Grape, Apple, Ornamentals	155 to 207 g/ha 5.3 to 7 oz/ac	In-furrow: Used in 26 gal. of water. Irrigation: apply after transplanting
Greenhouse Crops	207 to 260 g/ha 7 to 9 oz/ac	Irrigation and foliar application: Used in 26 gal. of water.
Established Crops: Berries, Grape, Apple and other fruits, Ornamentals and shrubs	155 to 207g/ha 5.3 to 7 oz/ac	Irrigation and foliar application: Use product in required amount of water and apply during the growing cycle.
Turf and Grasses	207 to 260 g/ha 7 to 9 oz/ac	Irrigation and foliar application: Use product in required amount of water and apply during the growing cycle.

It can be diluted or mixed with other compatible powders or liquid nutrients. **DO NOT** mix with fungicides or pesticides. Confirm tank mix compatibility and crop tolerance before mixing with other products. For more detailed directions for use on this product, contact your representative at NuVia Technologies.

MANUFACTURED FOR AND GUARANTEED BY:

Expertise in Agricultural Biochemistry, Microbiology, Bioprocess Engineering and Environmental Applications

Mode of Action:

Genus MC8 PGPR and PGPF inhabit the root zone and providing increased water and nutrient

CAUTION: This product contains Iron, Manganese, and Zinc and should be used only as recommended. It may prove harmful when misused. This product contains soybean. Adverse reactions may occur in sensitive persons. If skin contact occurs, wash with soap and water. Wear mask and protective gloves. If allergic reaction occurs, seek medical attention.

PRE-CAUTION

Keep out of reach of children. Do not breathe dusts or mists. Wash thoroughly after handling. Do not eat, drink when using this product.

Product Spillage: In case of spills, sweep or vacuum without creating dust, into a suitable container for disposal and wash area with water.

FIRST AID

SKIN CONTACT: Rinse thoroughly with water.

If irritation persist seek medical attention.

EYE CONTACT: Rinse thoroughly with water.

If irritation persist seek medical attention.

SWALLOWING: Rinse mouth thoroughly with water, salt water if possible. Induce vomiting and seek medical attention.

STORAGE:

The living PGPR and PGPF spores are an active ingredient in this product and require appropriate storage condition to ensure the viability and performance of the product.

- Keep container closed when not in use.
- For best temperature control, store product and treated seed on dry floor surface.
- Use before the expiration date. The expiration date is valid only for unopened packs stored under the recommended conditions above.
- Store product in original packaging under dry conditions, preferable room temperature or colder
- Avoid direct sunlight and excess heat.
- Keep container tightly closed and sealed until ready for use.

Disclaimer: Since the use of this product is beyond NuVia's control we will not accept any liability for the misuse or claims otherwise except for quality of the product.

Caution: The product contains micronutrients and soy amino acids, and should be used as recommended.

SDS: Please read the product Safety Data Sheet before use.
